

BLACKTREE'S NUTRACEUTICAL

Your Health, Our Commitments
Expert Care for a Healthier Tomorrow
Trust Us for Wellness with
Nutraceuticals

Nutraceuticals are the nourishing components (hybrid of nutrition and pharmaceuticals) that are biologically active and possess capability for maintaining optimal health and benefits. These products play a significant role in human health care and its endurance, most importantly for the future therapeutic development. Nutraceuticals have received recognition due to their nutritional benefits along with therapeutic effects and safety profile.

HEAL NATURALLY, FEEL THE DIFFERENCE

About Us

At **BLACKTREE's** Nutraceutical, our journey began with extensive research and dedication to natural health solutions. **Founded by Dr. Neeraj Upadhyay** with a vision for holistic nutritional support, we've grown into a trusted destination for people seeking effective nutraceutical products. Our team consists of dedicated health professionals who understand that true wellness comes from within. We're not just a product provider we're your wellness partner, your health advocate, and your support system on the path to better health.

Natural Support for Your Complete Wellbeing

Welcome to **BLACKTREE's** Nutraceutical, where we believe every person deserves health solutions that work in harmony with their body. **BLACKTREE's** was founded on the principle that health concerns should be addressed gently and naturally, without harmful side effects.

Our Nutraceutical Heritage

Established by Dr. Neeraj Upadhyay, **BLACKTREE** just started its journey with lots of research and hard work in the Nutraceutical sector for human health. What began as a commitment to providing nutrient-rich supplements has blossomed into a comprehensive health destination, offering researched nutraceutical products for those seeking natural approaches to wellness.

The BLACKTREE's Difference

At **BLACKTREE**, we understand that your health is your most precious asset. That's why we've created a health approach where you receive premium products tailored to your individual needs. Each supplement is designed to provide additional nutrients that may be lacking in a person's diet. Our team led by Dr. Neeraj Upadhyay consists of qualified specialists who share an unwavering passion for natural health. Our nutraceuticals support over all nutritional status and help reduce the risk of chronic diseases.

We address your physical wellbeing through integrated nutritional support.

BLACKTREE's Promise

We pledge to provide every customer with quality products, respect, and personalized attention. We maintain the highest standards of professionalism, ethics, and excellence in everything we do. At BLACKTREE, we don't just offer supplements – we empower wellness. Because in our approach to health, everyone deserves to experience wellness naturally.

Our Mission!

To provide unparalleled nutraceutical solutions that honor the vital connection between humans and holistic wellness. We combine expert nutritional knowledge under Dr. Neeraj Upadhyay's guidance, quality ingredients, and premium formulations to ensure everyone receives the support they deserve, enhancing their wellbeing and vitality naturally.

Our Vision!

To proceed in the health sector and provide better health solutions with nutraceuticals. We aspire to create a world where effective, gentle health support is accessible to all who seek to embrace wellness the natural way through our locations in Greater Noida and Delhi. Our goal is to help people fill nutritional gaps in their diets and provide essential vitamins, minerals, and other beneficial compounds for overall health.

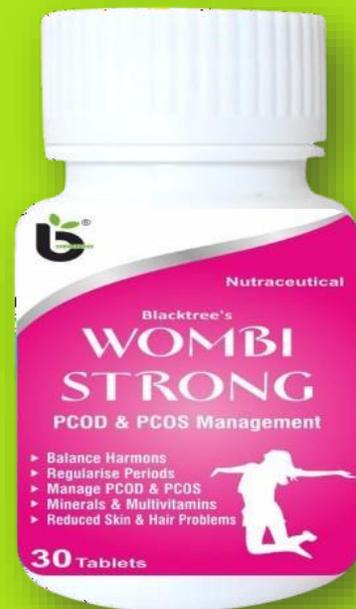

BLACKTREE'S WOMBISTRONG

PCOD & PCOS Management Nutraceutical Tablet

Product Highlights

- ✓ Helps Weight Management
- ✓ Helps Reduce Ovarian Cysts
- ✓ Fulfill Minerals s Multivitamins
- ✓ Helps Regularize Periods & Ease Flow
- ✓ Supports Healthy Ovulation & Fertility
- ✓ Helps Reduce Hormonal Acne & Facial Hair
- ✓ Helps Regain Hormonal & Metabolic Balance

Key Ingredients

- ✓ **D Chiro Inositol+myo Inositol** contains **D-chiro inositol** and **Myo-inositol**. It helps in follicular development, improves egg quality, and restores ovulation in women. It enhances the chances of pregnancy and ovulation, reduces symptoms associated with PCOS, and improves fertility in women with polycystic ovarian disease.
- ✓ **Alpha-Lipoic Acid** and **Acetyl L-Carnitine** combined provide powerhouse compounds scientifically shown to support cellular energy, function and health and provide anti-aging benefits for the brain and cardiovascular system and improved lipid profile and serum glucose.
- ✓ **Vitamin D** aids in calcium absorption for bone health, while Vitamin E acts as an antioxidant. Vitamin B2 (riboflavin) supports red blood cell production and metabolism, Vitamin B6 (pyridoxine) is crucial for brain function and red blood cell formation, Vitamin B12 (cobalamin) is vital for nerve function and DNA synthesis, and Folic acid (B9) is essential for red blood cell formation.

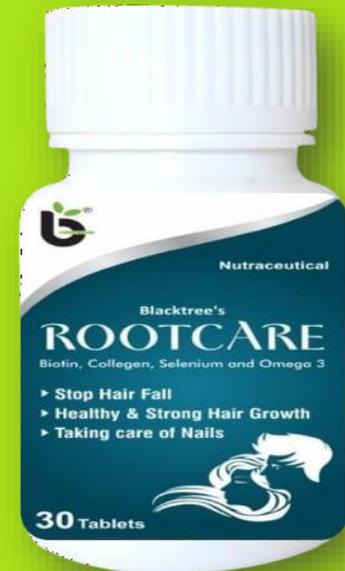

BLACKTREE'S ROOTCARE

Hair Management Nutraceutical Tablet

Product Highlights

- ✓ Reduce Hair Loss
- ✓ Reduce Grey Hairs
- ✓ Taking Care of Nails
- ✓ Improving Scalp Health
- ✓ Regrowth Healthy Hairs
- ✓ Maintain the Hair strength

Key Ingredients

- ✓ **Biotin**, also known as Vitamin B7 or Vitamin H, is a water-soluble vitamin that's often touted for its potential to improve hair and nail health. While biotin deficiency can contribute to hair thinning, brittle nails, and skin rash, there's limited scientific evidence that biotin supplementation improves hair growth in healthy individuals.
- ✓ **Selenium** plays a crucial role in hair health, supporting growth, reducing dandruff, and improving hair texture. It acts as an antioxidant, protecting hair follicles from damage and promoting healthy cell production. While beneficial in moderation, excessive selenium intake can lead to hair loss and brittle hair.
- ✓ **Collagen** plays a significant role in hair health, contributing to its strength, volume, and elasticity. It provides amino acids that help build keratin, the main protein of hair, and may help slow down thinning and graying.
- ✓ **Omega-3 fatty acids** offer a range of benefits for hair health, making them an essential part of a balanced diet for those looking to improve hair growth and strength. By reducing inflammation, promoting scalp circulation, and nourishing hair follicles, Omega-3s can help combat hair thinning and dryness.

BLACKTREE'S ARTHOSTRONG

ARTHRITIS Management Nutraceutical Tablet

Product Highlights

- ✓ Helps Reduce Inflammation
- ✓ Enhance Joint Mobility
- ✓ Helps in Body Stiffness
- ✓ Helps Reduce Joint s Muscles Pain
- ✓ Prevention from Gout Problem
- ✓ Helps to Cure the Arthritis Problem

Jssai

Key Ingredients

- ✓ **Colchicum luteum**, also known as Yellow Colchicum, is a perennial herb found in the Himalayan region. It is a medicinal plant with a wide range of uses, including treating rheumatic swelling and wounds. The plant is characterized by its yellow, funnel-shaped flowers and ovoid, flattened corms.
- ✓ **Withania somnifera**, also known as Ashwagandha, has been traditionally used in pain management and inflammation. Studies suggest it possesses analgesic, anti-inflammatory, and immunomodulatory properties, potentially benefiting conditions like arthritis and osteoarthritis.
- ✓ **Moringa oleifera**, often called the "miracle tree," has been traditionally used to relieve pain and inflammation due to its analgesic and anti-inflammatory properties. Studies have shown that extracts from Moringa oleifera leaves exhibit analgesic effects comparable to aspirin, particularly in mice models.
- ✓ **Cissus quadrangularis** might have antioxidant, pain-relieving, and anti-inflammatory effects. It might also help stimulate bone growth.

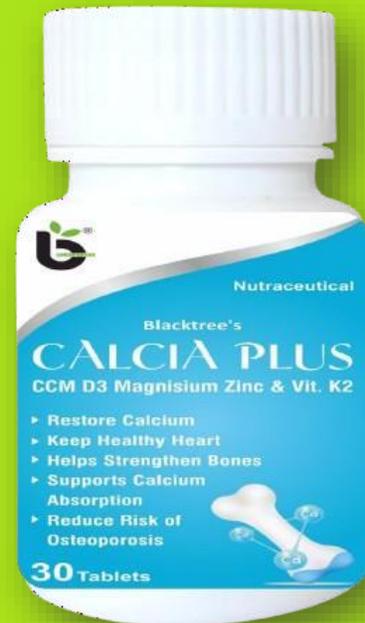

BLACKTREE'S CALCIA-PLUS

Calcium, Vitamin D3 & Magnesium Management Nutraceutical Tablet

Product Highlights

- ✓ Enhance Bone Strength
- ✓ Reduce Risk of Osteoporosis
- ✓ Helps Cardiovascular Health
- ✓ Supports Calcium Absorption
- ✓ Helps in Muscle and Nerve Function
- ✓ Reduce cramps

Key Ingredients

- ✓ **Calcium citrate malate** offers several benefits related to bone health, including increased bone density, reduced fracture risk, and improved calcium absorption. It also supports muscle function, potentially alleviating cramps and stiffness, and may assist in maintaining overall cardiovascular health.
- ✓ **Magnesium** is a crucial mineral involved in over 300 biochemical reactions in the body, impacting various aspects of health. It plays a vital role in maintaining muscle and nerve function, supports bone health, helps regulate blood sugar levels, and contributes to a healthy immune system.
- ✓ **Vitamin D (ergocalciferol-D2, cholecalciferol-D3, alfacalcidol)** is a fat-soluble vitamin that helps your body absorb calcium and phosphorus. Having the right amount of vitamin D, calcium, and phosphorus is important for building and keeping strong bones.

BLACKTREE'S CARTILAGE-PRO

JOINT Management Nutraceutical Tablet

Product Highlights

- ✓ Helps Reduce Inflammation
- ✓ Reduce Knee & Hip Joint Pain
- ✓ Helps in body Stiffness
- ✓ Regenerate Cartilage
- ✓ Enhance Joint Mobility
- ✓ Maintain Collagen II for Joints
- ✓ Maintain Collagen Between Joints
- ✓ Enhance minerals s multivitamin level

Key Ingredients

- ✓ **Glucosamine sulfate** is a supplement often used to support cartilage health, particularly in conditions like osteoarthritis. It is believed to help with cartilage maintenance and repair by stimulating the production of cartilage components and potentially inhibiting cartilage breakdown.
- ✓ **Rosehip extract** may offer benefits for cartilage, potentially helping to alleviate pain and stiffness associated with conditions like osteoarthritis. It's believed to work by reducing inflammation, combating oxidative stress, and even inhibiting enzymes that break down cartilage.
- ✓ **Type II collagen** is a key structural protein in cartilage, particularly in hyaline cartilage like that found in joints, making up a significant portion of its collagen content. It's primarily responsible for providing tensile strength and forming the fibrillar network that helps to entrap proteoglycans, thus maintaining the cartilage's integrity and ability to withstand compressive forces.

BLACKTREE'S PLATELET-GROW

PLATELETS Management Nutraceutical Tablet

Product Highlights

- ✓ Reproduction of Platelets
- ✓ Boosts the Immune System
- ✓ Rich in Vitamins and Enzymes
- ✓ Beneficial for Overall Health
- ✓ Helps in Anemia

Key Ingredients

- ✓ **Goat milk** is also widely used to increase platelet count. Goat milk is considered as an important source of selenium. Selenium content is high in platelets and it is also thought to inhibit platelet aggregation.
- ✓ **Papaya leaf extract** is traditionally used to help increase platelet counts, particularly in regions with high dengue fever incidence. While there's no conclusive scientific evidence that papaya directly boosts platelet production in humans, studies suggest papaya leaf extract might help maintain platelet levels during dengue and may have anti-inflammatory properties.
- ✓ **Vitamin E** can influence platelet function, potentially inhibiting aggregation and reducing platelet adhesiveness. Some studies suggest that vitamin E supplementation can help increase platelet counts, especially in dengue fever patients.
- ✓ **Kiwi fruit extract** is potentially benefitting platelet count due to its rich source of vitamin C, which supports platelet production and function.
- ✓ **Giloy leaf** is considered effective in increasing platelet count. It contains antioxidant and anti-viral properties, which help in boosting immunity as well as increasing platelets.

BLACKTREE'S VITA-IN

Multivitamins & Minerals with Ginseng Management Nutraceutical Tablets

Product Highlights

- ✓ Helps Weight Management
- ✓ Boosts the Immune System
- ✓ Rich in Vitamins and Enzymes
- ✓ Promotes Healthy Skin, Nails and Hair
- ✓ Provides Essential Vitamins and Minerals
- ✓ Provides Energy, Strength and Stamina
- ✓ Helps Regain Hormonal s Metabolic Balance
- ✓ Relieves Fatigue and Lethargy

Key Ingredients

- ✓ **Multivitamins and minerals** are supplements that can help fill nutritional gaps in your diet and potentially support overall health. They can be beneficial for individuals who may have difficulty getting enough essential nutrients from food alone, or who have specific health needs like pregnancy or digestive problems.
- ✓ **Multivitamins containing Vitamin A, B complex, C, D, and E** are designed to provide a range of essential nutrients for overall health and well-being. These vitamins play various roles in the body, including supporting vision, metabolism, immunity, and bone health.
- ✓ **Ginseng**, a popular herbal supplement, is often touted for its potential health benefits, including boosting energy, improving cognitive function, supporting immune system health, and reducing stress. It's also believed to have positive effects on heart health and sexual function.
